

**PACIFIC COLUMNS &
ARCHITECTURAL DEPOT**
VOLUME VII

what we **MAKE**

Our exterior shutters are crafted in a variety of high quality materials designed to meet your needs. Whether you seek popular vinyl, durable fiberglass, or authentic wood shutters, we have an ideal shutter for any exterior.

SHUTTERS

Stately, elegant and bold, Endura-Series Composite Architectural Columns are historically inspired, entirely beautiful, and fully load bearing. Our Endura-Series Composite Architectural Columns bring traditional appeal and modern durability - an excellent alternative to traditional stone columns.

COLUMNS

Balustrade is one of the finest architectural elements that exists. We designed the absolute best balustrade product on the market. FiberThane is the only light-weight system that can span 16' lengths without needing a newel post or column.

BALUSTRADE

We have the largest collection of decorative crown moulding in the industry, with hundreds of different designs available. But we don't just carry one type of moulding: we also supply many other types of moulding, including panel moulding and chair rail. To help keep your project simple, we have 'Miter-Free' solutions that are absolutely revolutionary.

MOULDING

Our medallions and domes are modeled after original, historical patterns and designs. The installation is quick and easy due to the lightweight material. To make things even easier they come primed, ready-for-paint, or in faux finishes. Don't be afraid to cut, drill, screw, or glue these products.

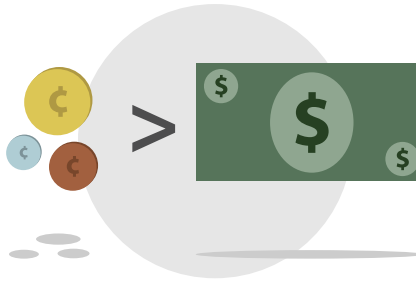

**MEDALLIONS
& DOMES**

THOUSANDS OF OPTIONS

Our product lines are enormous! We carry thousands of products with some product lines boasting several hundred variations. If you don't find something you love, check our website or give us a call to find out what we have in stock.

SPEND LESS MONEY

Get the most bang for your buck. We aim to sell the highest quality products for the lowest possible price. If the price is lower somewhere else, call us! We want to make that right by beating the price and leaving you with some extra money in your wallet!

GET YOUR PRODUCTS FASTER

Simply put, our lead times are the fastest out there. You won't find a company that can process and ship your order faster. Some products can be shipped out in 24 hours and we also provide expedited shipping options to make sure your products make it there on time.

Both load bearing and decorative our brackets and corbels come in wood, urethane, and metal. You are bound to find something that suits your project because we have the largest selection of brackets and corbels in the industry. We carry both modern and traditional designs.

BRACKETS
& CORBELS

Our gable vents come in thousands of sizes and designs, and can be functional or decorative. We make these in a variety of standard sizes and can do custom sizes, as well. Since we like to give as many options as possible, we make these in wood and urethane.

GABLE
VENTS

Crossheads are great for windows and doors. We carry virtually any size that can be installed interiorly or exteriorly. Crossheads make it easy to dress up any entryway.

CROSSHEADS

Metal brackets add an elegant look while also serving as countertop supports. Made from 1/4" thick steel and with a corrosive-resistant finish, our brackets are made to withstand the toughest applications. Pre-drilled mounting holes ensure seamless installation.

METAL
BRACKETS

Our Rustic Collection is an instant classic. Our Rustic wood millwork utilizes technologies of today to build the 'log and timber' wood products that have been in architecture for centuries. Because these products are not kiln dried, each item in our Rustic Collection is 100% unique. Within the Rustic Collection there are natural variations that make this collection stand out from the rest.

RUSTIC
SERIES

NEED AN INSTALLER?

WANT TO FEEL COMFORTABLE WITH A CONTRACTOR? HIRE A LOCAL PRO!

The Local Pro Partnership program is a network of thousands of industry-related professionals all across the country who have worked with us recently, are familiar with our product lines, and have been certified to be our Partner in your area. They are the top pros in your city that are familiar with our products!

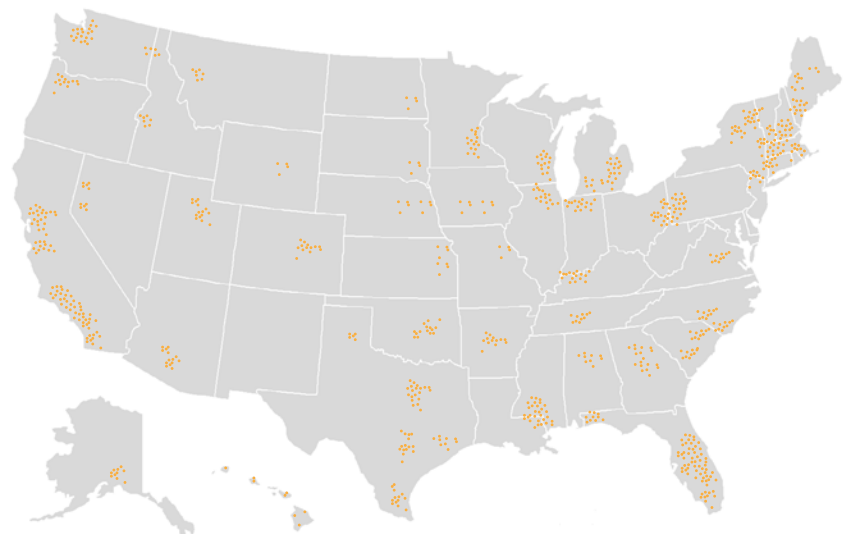

How do we verify the quality of these installers and designers?

- Credit Checks
- BBB Review
- Verified Contactor Number or Industry Status
- Reputation Check with Prior Customers
- Reviewed on Yelp
- Certification Test and Screening Process
- And Much More!

Have you ever been looking for a contractor but weren't sure where to start or what qualifications to look for? We understand. That is why we created the Local Pro Partnership Program. We combed the country looking for the best contractors, builders, designers, and architects who specialize in millwork and have worked with our products before. These companies then applied to be a part of the program, and only the best passed and became our Local Pros. If you need help with columns, shutters, millwork, or any product we make, these are the guys to call!

INSTALLATION OVERVIEW

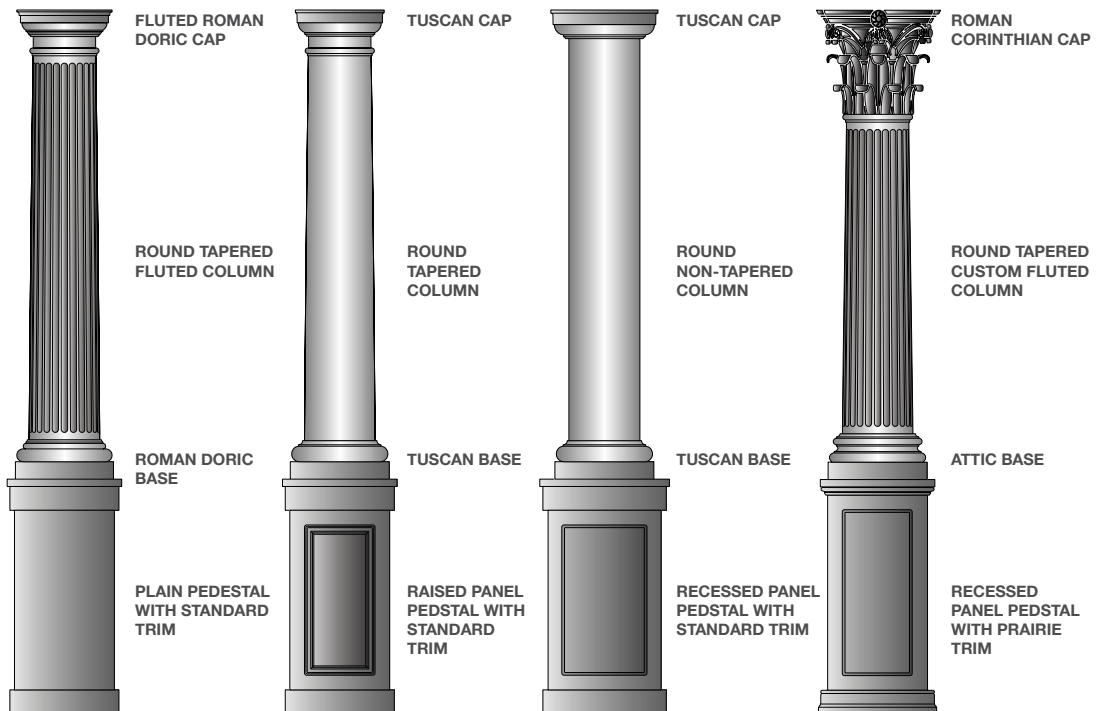

Use Endura-Craft pedestal bases with our Endura-Stone, round columns! Simply install the Endura Stone column as you normally would, and then assemble the Endura-Craft Pedestal base around it.

- Endura-Stone is load-bearing
- Install pedestal bases around existing round columns
- Simple installation
- High-end custom carpentry appearance
- Historically accurate
- Virtually unlimited design options

ARCHITECTURAL WOOD COLUMNS

Premiere Series™

Wood Columns embody the beauty and elegance of their classical predecessors, as well as unique, contemporary forms. Now you can incorporate their timeless appeal into both exterior and interior spaces. We offer a diverse selection of wood columns to meet all your decorative needs. Our wood columns encompass historically accurate styles, including the basic Doric, elegant Ionic and richly textured Corinthian orders. If you want something custom, we can mill any desired wood species into virtually any diameter, height, and shape that will work perfect for your project.

BALUSTRADE

THE *BEST* REASONS TO CHOOSE FIBERTHANE BALUSTRADE

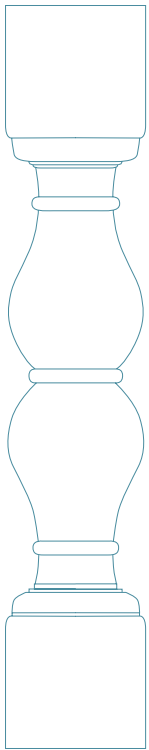

The entire FiberThane system was designed from the ground up, utilizing state-of-the-art materials for each component. Constructed from pultruded fiberglass, the rails and newel posts are made with some of the strongest and most durable construction materials available. Our balusters are made out of a structural aluminum alloy surrounded by molded polyurethane, giving you the strength of structural metal, and the architectural design and crisp detail of urethane.

Why choose the FIBERTHANE® balustrade systems:

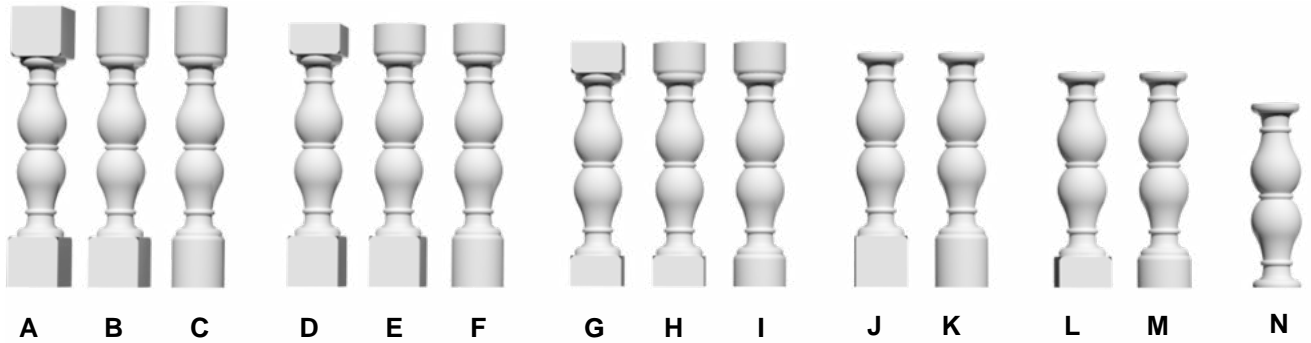

- Fiberglass top and bottom rails are more durable than any other material in the market.
- Is light-weight (between 15lbs - 22lbs per foot), making it perfect for every application.
- Can span 16' lengths while still passing construction codes.
- Rails are sold in one-foot increments. This means no wasted rail.
- Patent Pending 'Quick-Install' brackets are concealed and provide a completely finished look.
- The 'Quick-Install' brackets allow for quicker installation than traditional methods.
- Over 100 different baluster designs – balusters available with either round or square blocks.
- Easiest stair installation you have ever seen. Ask us, we will explain.
- Maintenance free. Impervious to weather, moisture, and insects. Will not crack, chip, or deteriorate.
- Lifetime warranty.
- All spindles, rails, and newels are 100% unique designs.
- Pre-drilled holes or even full length pre-assembled sections are available.
- Available to ship within 72 hours. Need it faster? Tell us, and we will ship tomorrow!
- More cost-effective than Urethane or FRP systems.

WOOD GABLE VENTS

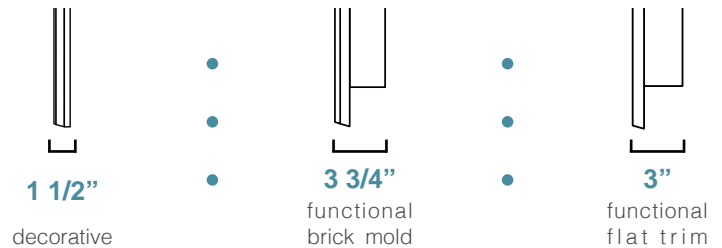

WOOD GABLE VENTS

BRICK MOULD OR FLAT TRIM

All of our vents are available with either a brick mould frame or a standard 1"x4" flat trim. Brickmould is perfect for new construction or when you need to run siding up against the vent. For all other application, the 1"x4" trim will work perfectly for you.

DECORATIVE OR FUNCTIONAL

All our vents are available as either a fully functional air-flow vent, or as a surface-mounted decorative vent. The louver boxes on our functional vents are designed to maximize air-flow while also protecting your attic from the natural elements. Decorative gable vents are designed to be non-functional, surface-mounted vents.

ROUGH SAWN SMOOTH

ROUGH SAWN OR SMOOTH

The smooth finish Cedar or Pine is milled to perfection in our state-of-the-art wood shop. The smooth finish vents are also the perfect option if you plan on painting them. The rough-sawn finish offers a natural rustic look. The rough sawn vents are timeless, offering the saw-textured surface obtained during the milling process that give you the look of freshly cut lumber.

WOOD SPECIES

We offer our vents in both traditional Pine or durable Cedar. All of our wood is carefully chosen and hand inspected before being assembled into your vent. After each vent is made, it is again inspected to ensure you receive only the highest quality product on the market.

UNFINISHED OR PRIMED

You have the choice of ordering an unfinished gable vent or a primed one. If you prefer the natural look of freshly cut wood, unfinished is for you. If you prefer to paint your vent, we will prime it for you with two coats of high quality exterior grade primer.

COMPONENTS OF PART NUMBER: **GVWVE12X1801RDUPI**

00 = brick mould face frame
01 = 1" x 4" flat trim frame

R = rough sawn
S = smooth

F = functional
D = decorative

U = Unfinished
P = Primed

PI = Pine
WR = Western Red Cedar

RUSTIC CORBELS, BRACKETS, BRACES & OUTLOOKERS

CORBELS, BRACKETS, BRACES, OUTLOOKERS

Our Rustic Collection is an instant classic. Our Rustic wood millwork utilizes technologies of today to build the ‘log and timber’ wood products that have been in architecture for centuries. Because our products are not kiln dried, each item in our Rustic Collection is 100% unique and will contain the natural variations that the wood species offers. Your wood bracket, corbel, rafter tail, or gable vent will contain unique colors, grains, textures, knots, sapwood, and heart wood content as well as possible sap bleeding, and even natural checking, splitting and cracks. These natural variations are what make the Rustic Collection stand out from the rest as truly natural wood products.

Made in the USA

ROUGH SAWN SMOOTH

ROUGH SAWN OR SMOOTH

The smooth finish Cedar or Pine is milled to perfection in our state-of-the-art wood shop. The smooth finish vents are also the perfect option if you plan on painting them. The rough-sawn finish offers a natural rustic look. The rough sawn vents are timeless, offering the saw-textured surface obtained during the milling process that give you the look of freshly cut lumber.

WOOD SPECIES

We offer our vents in both traditional Pine or durable Cedar. All of our wood is carefully chosen and hand inspected before being assembled into your vent. After each vent is made, it is again inspected to ensure you receive only the highest quality product on the market.

UNFINISHED OR PRIMED

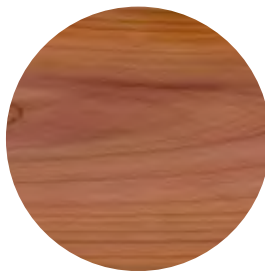

You have the choice of ordering an unfinished gable vent or a primed one. If you prefer the natural look of freshly cut wood, unfinished is for you. If you prefer to paint your vent, we will prime it for you with two coats of high quality exterior grade primer.

WAINSCOTING FOR LESS

Use panel moulding to create the elegant look of wainscoting without the price.

HERE IS WHAT YOU CAN DO:

- Use a chair rail as the top moulding.
- Use any moulding you desire (we suggest a simpler style) to make the panels.
- Use a baseboard for the bottom moulding.
- Paint the wall white in-between all of the moulding.
- It's that easy!

PICTURE FRAME MOULDING

MEDALLION FINISHES

FLAT PAINT AND CUSTOM FINISHES

We individually hand finish each of our millwork products and therefore can offer a complete line of custom finishes. If you have a design style or finish in mind, please contact your Ekena Millwork dealer for pricing and availability. Since each medallion is made especially for you, they are non-refundable.

MEDALLION FINISHES

SPECIALTY METAL AND WOOD FINISHES

Our specialty finishes are hand painted, creating high quality, one of a kind medallions. They come in metal and wood finishes, including our most popular finish, rust. Once painted, they are sealed for lasting protection. If you are looking for high end, high quality finishes you're looking in the right place.

CEILING RINGS

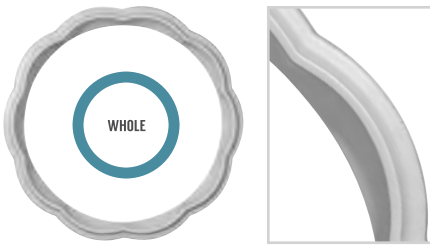

WHOLE
complete circle

QUARTER
1/4 of a circle

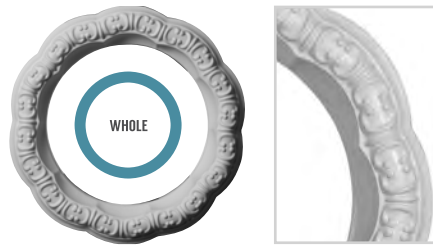

The complex block contains two circular diagrams. The first diagram is a solid teal circle with the word "WHOLE" in the center and "complete circle" below it. The second diagram is a teal circle with only one quadrant shaded, with the word "QUARTER" in the center and "1/4 of a circle" below it.

METAL BRACKETS

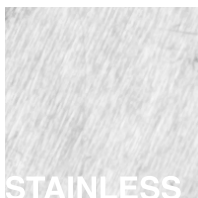

Metal brackets are our newest product line! The brackets are extremely durable and heavy duty, ready to hold up any counter-top or surface that is put on them. They come in stainless steel as well as rolled steel and are ready to install the moment they arrive. Pre-drilled holes make installation as easy as it gets and all welds are on the back, providing a clean look. All of this combined offers a contemporary, high end, and high quality project that is guaranteed to meet all expectations.

- 1/4 INCH OF STEEL PROVIDES ULTIMATE SUPPORT
- PRE-DRILLED HOLES MAKE INSTALLATION AS EASY AS IT GETS!
- GREAT FOR SUPPORTING COUNTERTOPS AND SHELVES
- BOTH STEEL AND BRUSHED STAINLESS STEEL OPTIONS
- ALL WELDS ARE ON THE BACK FOR A CLEAN AND FINISHED LOOK
- IN STOCK AND SHIPS WITHING 24 HOURS

STEEL VS. STAINLESS STEEL?

The main differences between Steel and Stainless Steel are the corrosion resistance of stainless as compared to raw steel (or cold rolled steel). Stainless resists corrosion and does not require finish treatment to prevent rusting. Raw steel does require a finish such as painting, plating or galvanizing in order to inhibit rusting.
